Deployment: Netlify, Render

EXPERIENCE

Frontend Developer Trainee <i>Naresh i Technologies</i>	Aug 2025 – Present <i>Hyderabad, Telangana</i>
Developed responsive and interactive user interfaces using HTML, CSS, JavaScript, and React. Converted UI designs into reusable React components with clean and maintainable code. Implemented form handling, client side validation, and dynamic rendering of data. Improved website performance and accessibility across different screen sizes and devices. Collaborated with team members using Git and GitHub for version control.	

PROJECTS

Birthday Reminder Website	2026
Developed a user friendly birthday reminder website to help users track and manage important dates. Implemented features to add, edit, and view birthday reminders with an intuitive interface. Designed a clean and responsive UI ensuring smooth experience across mobile and desktop devices. Focused on usability, simple navigation, and visually clear layouts for better user engagement. Live Project: https://birthday-reminder38.netlify.app	
E Commerce Website	2024 – 2025
Developed a responsive frontend for an online shopping platform using React. Implemented product listing, filtering, and search functionality. Built interactive shopping cart UI with real time updates. Ensured smooth user experience with mobile first and responsive design principles.	
Daily Links Nepal	2025 – Present
Designed and developed a responsive frontend interface for managing categorized digital links. Built reusable React components for navigation, cards, and content sections. Focused on clean UI design and smooth user experience across devices. Optimized layout and performance for mobile, tablet, and desktop screens. Live Project: https://dailylinksnepal.com
